

Stronger Year After Year

MMLA membership has grown a sizeable 42 percent over the past four years. For the first time in association history, the goal of 300+ member households is within easy reach. Please make your membership count in 2019!

Member Strong = MMLA Strong!

An impressive \$1,850,000 in private donations was raised in just seven months, quickly pushing the \$2,950,000 total needed to acquire, conserve, and steward the Birch Ridge Community Forest over the top.

This remarkable accomplishment was achieved *only* with the vision, commitment, and financial support of MMLA members and other lake/area residents.

The Merrymeeting Lake Association, along with its partners Southeast Land Trust and Moose Mountains Regional Greenways, could not be more grateful or prouder.

Successes like this are all about leaders and members. Every membership in 2019, including yours, will help keep the momentum going and sustain a strong MMLA.

Your Membership Dollars at Work

The MMLA budget is funded by member dues, which haven't been increased since 2010, despite rising operational costs. A growing membership is key to the MMLA's preserve-and-protect programs and strategic partnerships, including:

- ❖ Lake hosts at public launch to inspect watercraft/trailers for invasive species
- ❖ Annual spring roadside cleanup
- ❖ MMLA/UNH weekly water testing
- ❖ Land conservation for long-term protection of the lake and watershed
- ❖ Partnerships with NH Lakes Association, Southeast Land Trust, Moose Mountains Regional Greenways, and Loon Preservation Committee

A Strong, Successful MMLA Depends on You

2019 Events and Dates Mark Your Calendar Now!
